"Touching the soul"

28 MARCH 2026

#2026 TEDxVIT Theme

TOUCHING THE UL

Defined as the immaterial, immortal essence or spiritual principle of a living being—often considered the seat of personality, intellect, and emotion—the soul stands as the core of the human experience and a reflection of the universe itself. It is the silent frequency behind our every thought and the invisible thread connecting us to one another.

Through the theme Touching The Soul, we explore the profound depth and infinite reach of human connection. We examine how simple, often overlooked actions create a ripple effect, leaving a lasting impact across the multiple avenues of our lives—from our personal relationships and creative endeavors to our collective contribution to the world.

Through our diverse perspectives offered by our invigorating lineup, we shed light on a wide array of topics, fundamental to the human experience. Along with a multitude of wide ranging experiences, we also believe the core human experience aligns with a fundamental truth that we are most alive when we are most connected.

By transcending the boundaries of the individual, we discover that our shared vulnerabilities and triumphs are not isolated events, but parts of a singular, resonant whole. This suggests that the soul is not a solitary spark, but a flame fed by the collective warmth of empathy, curiosity, and mutual understanding.

As humans we thrive in our collective discomfort, and our theme reflects the core human experience that allows us to thrive in our collective misery and celebrate tales of triumph and victory with unparalleled gusto.

WHAT IS TED?

TEDx is a grassroots initiative, created in the spirit of TED's overall mission to research and discover "ideas worth spreading." TEDx brings the spirit of TED to local communities around the globe through TEDx events. These events are organized by passionate individuals who seek to uncover new ideas and to share the latest research in their local areas that spark conversations in their communities. TEDx events include live speakers and recorded TED Talks, and are organized independently under a free license granted by TED. These events are not controlled by TED, but event organizers agree to abide by our format, and are offered guidelines for curation, speaker coaching, event organizing and more. They learn from us and from each other. More than 3000 events are now held annually.

The annual TED Conference takes place each spring in Vancouver, British Columbia. TED's media initiatives include TED.com, where new TED Talks are posted daily; the Open Translation Project, which provides subtitles and interactive transcripts as well as translations from volunteers worldwide; the educational initiative TED-Ed. TED has established the annual TED Prize, where exceptional individuals with a wish to change the world get help translating their wishes into action; TEDx, which supports individuals or groups in hosting local, self-organized TED-style events around the world, and the TED Fellows program, helping world changing innovators from around the globe to amplify the impact of their remarkable projects and activities.

ABOUT TEDx

In the spirit of ideas worth spreading, TEDx is a program of local, self-organized events that bring people together to share a TED- like experience. At a TEDx event, TED Talks video and live speakers combine to spark deep discussion and connection.

These local, self-organized events are branded TEDx, where x = independently organized TED event. The TED Conference provides general guidance for the TEDx program, but individual TEDx events are self-organized. (Subject to certain rules and regulations.)

ABOUT TEDxVIT

Our event is called TEDxVIT, where x = independently organized TED event. At our TEDxVIT event, TEDTalks video and live speakers will combine to spark deep discussion and connection in a small group. TEDxVIT is formed by a group of students & professors from Vidyalankar Institute of Technology, Mumbai to bring together bright minds to give talks that are idea-focused and on a wide range of subjects, to foster learning, inspiration and wonder - and provoke conversations that matter.

Each 18 minute (or less) long talk, performance or demonstration will have the power to open the minds of the audience, spark dialogue, and challenge attendees to transform ideas into action. Our hope is that TEDxVIT will change the view of open-minded and curious individuals, and will inspire, connect, and shape a new world.

One idea at a time

ABOUT VIT

Vidyalankar Institute of Technology (VIT) was established in 1999 at Dadar, Mumbai, offering three undergraduate engineering programs—Information Technology, Computer Engineering, and Electronics Engineering. In 2001, the institute relocated to its current, centrally located 11-acre campus at Wadala, Mumbai, providing enhanced infrastructure and academic facilities.

In recognition of its academic excellence, VIT was awarded an “A” grade by the Government of Maharashtra in 2005. The institute expanded further in 2006 by introducing two additional undergraduate programs—Electronics and Telecommunication Engineering, and Biomedical Engineering. The same year saw the construction of a state-of-the-art building that received international architectural acclaim.

In 2007, VIT launched its first postgraduate program, the Master of Management Studies (MMS), and introduced an additional division in the Computer Engineering program to meet growing demand. Further infrastructural development took place in 2015 with the construction of an internationally award-winning auditorium featuring an elegant ambience.

In 2022, all undergraduate engineering programs were accredited by the National Board of Accreditation (NBA), valid through June 2025. Additionally, VIT was granted Autonomous Status for the period 2022–23 to 2031–32, providing the institute with greater academic flexibility and the ability to design industry-relevant curricula.

GOLD THAT NEVER FADES

Sunshine.in

JEWELLERY THAT FEELS LIKE SUNSHINE

In 2022, at the age of seventeen, Khushi Brahmhatt (founder of sunshine.in) stood at the intersection of a lifelong dream and a creative reality. Driven by a deep-seated passion for the fashion and lifestyle industry, she began Sunshine.in from a small desk with a collection of handmade pieces crafted with heart and intention. What started as a solo venture—sharing these first creations through the energy of college event stalls and growing digital communities—was fueled by a simple mission: to reach people through products created with genuine love and a personal touch.

By 2026, that initial spark has evolved into a sophisticated brand trusted by thousands. As we expanded from local pop-ups to a nationwide presence, we listened to our community's desire for jewelry that lasts as long as their memories. Today, Sunshine.in proudly presents our signature Anti-Tarnish Pieces, a pinnacle of effortless elegance designed for the modern lifestyle. While our materials have transitioned to high-quality, resilient finishes, our core remains the same: we are a brand built on the belief that luxury should be accessible, durable, and always infused with the warmth of its original sunshine.

PERFORMERS

Shadaj Pancham is an interdisciplinary collective of engineers and artists from Vidyalandkar Institute of Technology. Named after the foundational, unwavering pillars of the Indian musical scale - the Shadaj and the Pancham: the team represents a unique intersection of high-level logic and human emotion. Their work transcends traditional boundaries, combining expertise in ML and algorithmic frameworks with a deep-rooted passion for Hindustani Classical Music. Through their research and projects like Shadaj, they challenge the audience to consider whether the "soul" of music lies in its mathematical perfection or in the human flaws that a machine has yet to replicate.
